

LANARK LIFESTYLES NEWSLETTER

April 2020

Extraordinary Times

Like you, Lanark Lifestyles is taking the COVID-19 pandemic one day at a time. Things are changing so rapidly that it's hard to keep track of everything.

At the end of the day, we are dedicated to our Residents and we are doing everything possible to keep them safe and healthy.

Activities are focused on individuals and our dining rooms have been changed around to accommodate single seating. Change is hard but our Residents are dealing with it like champs.

Unfortunately, the home is closed to visitors but we are encouraging "through the glass" visits via a patio or face time.

Stay safe and keep practicing physical distancing!

Where's Larry

HELLO
Spring

Exploring Retirement Living in a new way.

Although the world outside has been asked to stay home, we are here, making sure our residents are safe and well looked after.

Having said that, there is always a need for the services we provide. Although we aren't able to do physical tours of our residence at this time, Amanda is happy to do virtual tours with those folks that are interested in learning more about our community.

Just reach out - we are here to help!

Where's Larry?

Larry is guarding the entrance and practicing proper hand hygiene.

Please call us to book a virtual tour.

We'd love to show you around!
